Ruben reports from the arbitration committee

- There is still one vacancy on the arbitration committee.
- Anyone interested is welcome to apply.

Helen Würflein is entering the session at 18:25.

Hannah reports from the Faculty Council of the Faculty of Philosophy

- A new bachelor's degree program is to be introduced, for which a concept is currently being developed.

Levke reports from the Senate

- The student senators have filled the student seats on the **committees** (study, library, research, budget, and young academics committees).
- A **joint meeting** is also planned to improve communication and networking.
- The **meeting with VP Teaching** on the general examination regulations has also taken place. A solution was proposed, which will now be presented to the study committee.

Executive Board Report

- There is new information regarding the **closure of the Frei(t)raum**. The space management department was responsible for the closure, not the lecture hall management department. We were not informed because the room is not assigned to us. There are plans to speak with the StuCo in the future. We were not given any further details.
- The next **Presidium meeting** will take place on December 8, 2025. If you have any topics you would like to see addressed there, please feel free to contact us.
- The campus radio station will be able to move permanently on November 21, 2025, and is still looking for helping hands. So please feel free to come by and help if you can.

Paul Staab reports from the StuWe Administrative Board

- On October 24, the **StuWe Administrative Board** met. The main points discussed were the approval of the business plan and its implications.

Due to the announced cuts in state subsidies for the Studierendenwerk, we unfortunately had to make adjustments to our services and prices.

The social contribution will increase by € 10 to € 95 starting in the 2026 summer semester, cafeteria prices for employees and guests will increase in small increments, and the cafeteria Zur Rosen in Jena and the Hörsaal 7 cafeteria will be closed and discontinued. Further information can be found here: <https://www.stw-thueringen.de/news/studierendenwerk-thueringen-muss-gekue.html>

- However, there are cautiously positive developments regarding the Federal Education and Training Assistance Act (BAföG): at the turn of the year, external workers were hired to help reduce the backlog of applications at the BAföG office. At the same time, the processing of applications is being further centralized in Jena and Erfurt, while low-threshold office hours are being expanded at the other locations. Unfortunately, the financing of the entire BAföG office from 2026 onwards is still on shaky ground; the current agreement provides for a number of positions that would not be sufficient to cover the current volume of applications (without the backlog). Further information can be found here: <https://www.stw-thueringen.de/news/vorwegzahlungen-fuer-rund-2.000-bafoeg-empfaengerinnen-werden-geprueft.html>
- Fortunately, there has also been progress at Café Wagner: construction work is nearing completion, so Café Wagner will soon be able to return to its traditional location. In addition to Café Wagner, the StuWe's flexible childcare service will also move in there. (Incidentally, this is a very good service that deserves to be better known).
- I would also like to take this opportunity to promote the call for applications for representatives on the Administrative Board—we are always happy to hear from interested individuals who would like to get involved with the Studierendenwerk.
- If you have any questions, comments, or ideas, please feel free to contact Helen and/or me.

IOTA 04 → 03 | 18:40 | 3. Reading & Decision: Supplementary Budget 2025_26 (Finances)

Motion Text

Dear MoStuCo,

During the last term of office, work was already underway on the draft supplementary budget. Since then, there has been only one change. This is an increase in other costs for StuCo technology, as our system administration wants to expand the server structures and make them more secure.

Best regards,

The Finance Department

Addendum: An amendment was adopted at the last meeting. The updated supplementary budget can be found below.

Discussion

- **Willi** presents the motion. He has also noticed that our insurance fees for commercial events have risen in recent years. Therefore, the supplementary budget and budget should be adjusted to enable us to pay these fees. He submits an amendment.
- There are no questions.

Amendment from Willi Kröning: change the items as follows:

- A.09.01.04: 00,00 € → 400,00 €
- A.09.03.1.1: / → 400,00 €
- A.09.03.1.2: / → 3 300,00 €
- A.09.03.2: 1 500,00 € → 1 300,00 €
- A.09.03: 1 000,00 € → 680,00 €
- A.09.04: 500,00 € → 00,00 €

IOTA 03 → 04 | 18:47 | Discussion & Election: Executive Board (Executive Board)

Motion Text

Dear MoStuCo,

We are still looking for a third board member. Please consider whether you would be interested in this position.

If you have any questions, please do not hesitate to contact us.

Best regards,

The Board

Discussion

- **Katharina** nominates Marcus.
- **Marcus** nominates all members of the Student Council who are present and not on the Executive Board or Finances. He also nominates Andreas, even though he is absent.
- **Chiara** asks all those present one by one.
- Everyone declines.

Andreas receives a call. He also declines.

- **Willi** nominates himself.
- **Nele** also nominates herself. She criticizes the fact that people from finances now have to come forward, even though it is not actually a good idea for people to take on both board and finance roles at the same time.
- **Götz** suspects that the reason there are so few interested parties is because of the last few meetings and how things were discussed at them.

Willi leaves the room.

- **Nele** introduces herself. She had originally considered whether she wanted to join the board or do HHV, but ultimately decided on HHV. She is already working with the board, but can only take on the position until April.
- There are no questions.

Nele leaves the room. Willi is asked to come in.

- **Willi** introduces himself. He already spends a lot of time in the board office and is already familiar with the work, as he was on the board at the end of the last term. He also has enough time.
- **Marcus** asks about his training, as Willi wears a uniform for the start of Carnival season.

- **Willi:** “Proud graduate of the Starfleet Academy, class of 2395. I don’t drink alcohol, but I would symbolically toast with a good bottle of Chateau Picard :D.”

Willi leaves the room.

The committee discusses both candidates.

Patrick Hahn is entering the session at 19:00.

- **Götz** notes that there is no separation of powers between the board and finance anyway.
- **Bennet** explains that, regardless of this, it would simply be too much work to fill both positions.
- **Ruben** believes that the principle of separation of powers should be taken very seriously.
- **Dario** asks what the consequences will be if no third board member can be found.
- **Chiara** explains that we have until December 13, 2025, to elect a three-member board. Otherwise, the StuCo will be dissolved and new elections will be held.
- **Marcus** explains that we do not have to elect anyone if we have concerns, as we still have several weeks left.
- **Paul** asks why the candidates from the last meeting are no longer standing for election.
- **Levke** suspects that this is because the debate at the last meeting was not always very constructive or productive.
- **Götz** agrees.
- **Chiara** explains that there is still a lot to do on the board and that it is simply not a job for two people. The StuCo is currently caught between overburdening the board and dissolving the committee.
- **Maurice** explains that it is clear that no one will volunteer if they are always told that they have to invest 40 to 50 hours.
- **Ruben** asks why someone would join the StuCo if they are not prepared to invest time in the position.
- **Levke** explains that many people want to do something, but there is a difference between 10 and 40 hours per week.
- **Jan** adds that many MoStuCo members are also active in other structures and therefore it is simply not possible to put in an additional 40 hours per week.
- **Götz** advises against analyzing the problem and would like to stick with the current board election.
- There are no further comments.

Nele and Willi are invited back inside.

Survey of the Student Advisory Council (Scania Sofie Steger)

Motion Text

Hello everyone,

Scania Sofie Steger from the Student Advisory Council (StuBei) will present the results of the survey "Arriving - Living - Staying" at the meeting.

You can find the presentation in the meeting materials.

Best regards,

The Executive Board

Discussion

- **Scania** introduces the topic. She is chair of the StuBei and a member of the city council. Since the StuCo received the presentation of the survey in advance, she will only present parts of it in order to leave more room for feedback and questions.
 - Many first-year students took part in the survey.
 - Students are slightly less satisfied with local transport compared to the last survey.
 - More students are using the "Kulturticket". However, it is still not as well known as it could be. It is mainly used for the cinemas at Markt and Schillerhof, as well as for the theater.
 - When it comes to their living situation, the students say that they are generally satisfied. At the same time, however, they cite their living situation as a reason for not wanting to stay in Jena.
 - Students see a great need for psychosocial counseling.
 - Many students do not want to stay in Jena after completing their studies, especially medical students.
 - International students are more likely to want to stay in Jena, but see poorer job prospects.
 - Jena's natural surroundings and the friends people have here often make it attractive.
 - The housing market and the political situation make Jena unattractive.
 - Students with children are generally satisfied.
- **John** asks whether more or fewer students voted this time than last time.
- **Scania** says that this time 5% of students voted instead of 10 %.
- **John** asks how the statistical analysis was carried out and to what extent the difference in participation played a role.
- **Scania** explains her approach.
- **Niklas** adds that we use percentages because we want to work with proportions. He also asks what the chances are that something will be changed accordingly after the survey.
- **Scania** explains that it can already have a weighting when considerations are made. But of course, this does not free up any more money.

- **Niklas** asks about point 7, what the graph is supposed to show.
- **Scania** explains that the number of people who want to stay is increasing.
- **Scania** emphasizes once again that we can always contact them with urban issues.

IOTA 09 → 06 | 19:37 | Discussion & Election: Applications StuBei (Executive Board)

Motion Text

Hello everyone,

Two people have applied for the StuBei.

You can find the applications in the non-public meeting materials.

Best regards,

The Executive Board

Discussion

- **Chiara** presents the application. Both applicants are present and can introduce themselves.

Robert Pohle is entering the session at 19:39.

Patrick leaves the room.

- **Akin** introduces himself. He would like to support the work of Scania and Helen and advocate for students in the city. He believes that students have too little say and would like to focus on improving the housing situation and the Kulturticket. He has been a member of the student council in the past. He also plans to remain in contact with the executive board of the StuCo.
- There are no questions.

Akin leaves the room. Patrick is asked to come in.

Luisa Queck is leaving the session at 19:40.

- **Patrick** introduces himself. He already has experience in politics and in discussions with politicians.
- There are no questions.

Patrick leaves the room.

There are no questions or comments.

Patrick and Akin are asked to come back in.

Motion Text

Hello everyone,

At our last meeting, we postponed the election of a new sports representative once again. In the meantime, we have received another application, which you can find in the non-public meeting materials.

Discussion

- **Klara** explains that Robin is unfortunately unable to attend today due to an important appointment. However, he has recorded an introductory video for the committee. Lewin is also unable to attend again.

The introductory video is played.

- **Levke** asks what we should do about Lewin's application, as we have already postponed the agenda item several times because he was unable to attend.
- **Niklas** is in favour of holding the vote today and, if necessary, not electing him.

Motion Text

Hello everyone,

As announced at the last meeting, we would like to fill the positions of representatives. We introduced this concept during the last term of office, and it has proven to be very helpful and valuable. That is why we would like to fill these positions again.

Best regards,
The Board

Discussion

- **Nikolai** applies.
- **Katharina** suggests Levke and herself.
- **Willi** suggests Leo.
- **Marcus** suggests Maurice and Clara.
- **Leo** declines.
- **Levke** is unsure, as she would actually like to give up the position.
- **Clara** asks how much work it is to be a representative.
- **Levke and Katharina** explain that you usually only get involved when people approach the representatives with their problems. Often, you just refer people on or mediate between them. So it's not a lot of work.
- **Clara** accepts.
- **Maurice** declines.
- There is a discussion about whether we are allowed to hold an election, as the positions were not advertised publicly within the university.

Point of Order from Levke: Non-referral

no objection, Point of Order accepted

IOTA 10 → 10 | 20:34 | Discussion & Election: Delegation University Council (Vorstand)

Motion Text

Dear all,

As announced at the last meeting, we want to delegate a new person to the University Council, as Paul Staab will no longer be filling this position. He had previously proposed Helen Würflein as his successor. There are no other proposals at this time. Please consider whether you would like to take on this role.

Best regards,
The Executive Board

Discussion

- **Paul Staab** explains the tasks and composition of the University Council. It is primarily a discussion and networking body that takes a position on various issues, approves the economic plan and decides on the annual financial statements.
- **Helen** introduces herself. She already has a lot of experience with university committees. In the last term of office, for example, she was a member of the Senate. This term of office, she decided against the Senate and therefore has the capacity for the University Council.
- There are no questions.

IOTA 12 → 13 | 20:50 | 1. Reading: Budget Plan 2026_27 (Finances)

Motion Text

Discussion

- **Nele and Willi** present the budget plan.
- **Marcus** asks why the teaching department's budget is so low.
- **Nele** explains that, as always, we don't have enough money. That's why all departments' budgets are very low.
- **Niklas** asks what the status of the current budget column is. He also wonders how the allocations for the departments were determined.
- **Nele** explains that there is indeed a certain degree of arbitrariness. We are currently still waiting for feedback from the departments. As soon as the feedback is available, the plan will be adjusted.
- **Marcus** believes that departments are more important than the reception for volunteers.
- **Paul Staab** asks about the status of the "Haus auf der Mauer" and whether this has already been included. He also suggests collective items so that they can be moved more flexibly.
- **Willi** explains that the StuWe will not pay the HadM bills. However, we still have €4,000 in the account, which we are allowed to keep. The university has paid €14,000. The EAH StuCo is still paying €1,000.
- **Levke** asks whether the KoKos money has already been accounted for. She also agrees with Marcus and believes that the volunteer reception can also be financed alternatively.
- **Niklas** asks whether we really received €14,000 two weeks ago and whether this does not appear in the supplementary budget that we decided on earlier.
- **Willi** confirms this.
- **Niklas** asks a question about a collective item.

Henning Sylla is leaving the session at 21:00.

Max Weber is leaving the session at 21:00.

- **Willi** says what would happen if the budget is not approved as it stands.
- **Marcus** asks how the AEs were calculated.
- **Nele** explains that we have reduced the period to 10 months in order to save money.
- **John** asks about the circulation of the Akrützel.
- **Willi** explains that the circulation of the Akrützel will remain at 2,000 until June next year.
- **Nikolai** asks why salaries are rising.
- **Willi** explains that we pay according to TV-L and that the rates are going up.
- **Robert** asks whether the editorial board of Akrützel should be reduced on a mini-job basis.
- **Willi** explains that the plans for this are still generally up to date.
- **Florentine** from CRJ is not enthusiastic about this.
- **Paul Staab** says that a significant increase in the TV-L is not expected.
- **Helen** says that the trade unions are only expecting a maximum of 7% increase.

- **Nikolai** asks what ALOTA receives €1,000 for.
- **Willi** explains that we spend €600-700 on advertising materials. Everything else is financed externally.
- **Robert** asks why ALOTA costs are so high.
- **Willi and Levke** explain that ALOTA was cut significantly last year. It used to be more than €1,000.
- **Paul Staab** explains that we are fulfilling our legal duty of political education at ALOTA.
- **Nikolai** feels that this is too one-sided to be called political education. He asks whether we are obliged to pay ALOTA anything.
- **Paul Weiß** explains that anyone can register with ALOTA.
- **Marcus** adds that ALOTA started as a StuCo project. We should also keep it alive once we have introduced it.
- **Levke** agrees with Marcus. ThürHG says that we have to provide political education. ALOTA is just as much political education as anything else. Furthermore, it is the framework programme that is being funded, not the individual events. Extremist groups are excluded from this.
- **Nikolai** would like to ask ALOTA when something counts as democratic.
- **Levke** explains that he is welcome to send an email to ALOTA.
- **Marcus** adds that some groups were explicitly excluded.

Florian Dauker is entering the session at 21:15.

- **Willi** explains how he arrived at the cash balance.
- **Paul Staab** asks whether KoKos took into account that not only expenses but also income would be lost.
- **Willi** says no. Another €9,000 would be missing.
- **Niklas** asks why they have reverted to the system based on estimates from previous years.
- **Willi** explains that it is too early in the financial year to use last year's system. There are too few fund releases to use as a guide.
- **Nele and Willi** will continue to work on it until the next meeting.

Point of Order from Nele: End of reading

no objection, Point of Order accepted

Nikolai Demisch is leaving the session at 21:30.

IOTA 13 → 14 | 21:32 | Discussion & Decision: Expense Allowances (Willi Kröning)

Motion Text

Dear MoStuCo,

As I did a year ago, I am submitting all expense allowances at once. I have again based my calculations on the previous values. Since Nele was otherwise engaged for almost the entire month of October, I am only applying for her AE from November onwards. The unequal distribution of expense allowances for coordinating the Market of Opportunities is due to the equally unequal distribution of work, as far as I am aware. For Niklas, I would simply like to move away from the expense allowance decided two years ago in order to have strict approval of funds for all expense allowances.

IOTA 15 → 15 | 21:47 | Discussion & Decision: Release of Funds M-KOM-003-2025_26 – 93. KoMa (FSR Math)

Motion Text

Three members of the FSR Maths travelled to Chemnitz for the 93rd KoMa from 29 October to 2 November 2025. A positive statement from the FSR-KOM (23/0/0) and a positive review by the finance department are available.

More detailed information can be found in the funding approval.

Discussion

- **Chiara** presents the motion.
- **Marucs** asks why the executive committee did not approve the release of funds, since the amount is less than €500.
- **Klara** explains that it is a retrospective decision and therefore must be approved by the StuCo.

Draft Resolution: The Student Council of the FSU Jena approves the release of funds M-KOM-003-2025_26 in the amount of €120 from budget item A.01.35 20-cent pot (FSR-Kom) for the participation of the FSR Mathematics in the 93rd KoMa from 29 October to 2 November 2025.

IOTA 16 → 16 | 21:50 | Next Session**Discussion**

- **Klara** explains that we will have to hold another meeting on 18 November 2025, as the application deadline for the Student Services Association's administrative board is 17 November and we should have submitted our proposals to the KTS by 18 November at the latest.
- There are no objections.

IOTA 17 → 17 | 21:52 | Miscellaneous**Klara asks for feedback on the meeting materials**

- The committee likes the changes.
- Page numbers and links in the table of contents are requested.
- The board will try to implement the feedback.

Niklas asks about attendance statistics

- **Niklas** has some criticism and comments about the new statistics. He suspects that some formulas are incorrect and would like lists 42 and 84 of the FMI to be listed as one list.
- **Klara** offers to look at the list and the formulas with him. She will also combine the two FMI lists into one.

Niklas has submitted a motion to remove Willi from his position as treasurer.

- The reason for this is the lack of separation of powers when he is responsible for both finances and the executive committee at the same time.

Meeting colour

- **Leo** suggests bone white.
- **Marcus** suggests cherry red.
- **Levke** suggests forest green.
- **Stefan** suggests Viva Magenta.
- **Nele** suggests egg yolk yellow.
- **Willi** suggests PAF orange.
- **Chiara** suggests lime green.

Point of Order from Marcus: Opinion poll

Result: 4 bone white / 4 cherry red / 12 forest green / 5 viva magenta / 6 egg yolk yellow / 4 PAF orange / 9 lime green
